THE GREAT WALK

DELICIA ROAD (LINDA GARRETT) CONSERVATION PARK TO UBAJEE WALKERS CAMP

AMENDMENTS are underlined.

1. At Linda Garrett Park, enter the walk through the shelter shed and follow the sign marked Ubajee walkers camp. The trail takes you through a tall wet Sclerophyl forest with lots of Piccabeen Palms, Blackbutt, Turpentine and Flooded Gums. At the next intersection keep left, ignore the turn to the right to Linda Garrett circuit. The track leads over wooden boardwalks, small creeks and ponds. There is evidence of the area's logging past with lots of weathered stumps of old forest giants still carrying scars of centuries old axe cuts left by the tree fellers.
