

ELANDA TO MILL POINT

Cooloola Section Great Sandy National Park

Changes to start of Page 39

- 1.** The track starts opposite the car park. It is well signposted. The walk passes through a paperbark forest on a mowed grassy path.
- 2.** After a short distance the track crosses a wide, well mowed path with powerlines and then another, keep straight ahead. After a short distance the track merges with another one coming in from the right, keep left. This brings you to a T intersection with an interpretive sign, turn right. It is a good idea to remember this turn as it is not well signed on the way back.
- 3.** Continue on through open grassland with lots of wallabies and native birds. After a while, at what looks like the end of the trail, the track veers left. Continue left through the metal gate. There is a large sign detailing the many walks in the area.
- 4.** Follow the track until you reach the next intersection which is marked Mill Point (700 metres) and Elanda Point straight ahead (700 metres). Follow the track straight ahead.
